GO SERIES SEATED TRICEPS PRESS GO-S42

Now those new to strength training can improve their underarm with a press that's easy-to-use.

Oversized, neutral grips offer a comfortable hold while reducing stress on shoulder joints, a seated press motion follows a natural path to aid sit-to-stand progressions, and compact design stretches your space and budget further.

The guide rods can be removed without any tools at all for quick, easy maintenance. A durable metal shroud withstands tough environments and can be removed with only two bolts to streamline service.

Large, color-coded placard demonstrates start and finish positions while highlighting active muscle groups. Storage space keeps personal device, water bottles and towels in reach while reducing clutter.

Go Series features a small footprint and back-to-back design, improving traffic flow and making it easy to configure your space. Each single-station unit has a low starting weight and minimal to no adjustments, so users can get started right away.
